Subject Receipt of Your June 25th Letter

Dear Mr. Riley:

Thank you for your letter dated June 25, 2008, offering your comments on the Boston Logan Airport Noise Study (BLANS) in response to the May 30, 2008, elected representatives meeting. Your letter will be made part of the record and considered accordingly. Please note that the purpose of the May 30th meeting was to provide federal, state and local elected representatives of the study area with:

- An update on the project
- An opportunity to comment on the noise abatement measures proposed to be analyzed, and
- An opportunity to identify any additional noise abatement measures to be examined

Your recommendations for governance related to the Phase 1 alternatives must be coordinated through the Logan Airport Community Advisory Committee (CAC).

For future updates on the BLANS, please access the BLANS project website at <http://www.bostonoverflightnoisestudy.com/>. In addition, the FAA will continue to update you at various milestones during Phase 2 of the study.

Sincerely,
Terry English
