

ERRATA
BOSTON OVERFLIGHTS NOISE STUDY (BONS)
CATEGORICAL EXCLUSION (CATEX) /RECORD of DECISION (ROD)
October 23, 2007

An error was identified in the Decision section of the BONS CATEX/ROD following issuance and posting of the document on the web. There was text missing between pages 12 and 13 in the first paragraph of the Decision. It is indicated in **bold** text below.

The first paragraph of the Decision should read:

“After careful and thorough consideration of the facts contained herein, the undersigned finds that the proposed Federal action does not require preparation of an environmental assessment (EA) or **environmental impact statement (EIS) in accordance with the requirements of the National Environmental Policy Act and CEQ regulations, 40 CFR 1508.4, and FAA Order 1050.1E**, paragraphs 303a, 311g, 311i, and 311p. The implementation of the nine alternatives will not individually or cumulatively have a significant effect on the human environment. The FAA has examined possible extraordinary circumstances that would warrant preparation of an EA or EIS and determined that no such circumstances exist.”
